Subject: Label Change Update

June 11, 2014

Dear Customer,

This letter is to inform you that we will begin transitioning our labels from our old General Chemical name to our new Chemtrade name, as previously notified, starting from product made in May 2014. Below is a picture of both the old label, on the left, and the new label on the right.

In addition to the name change we removed the statement "Caution: For manufacturing, processing, or repacking" at the bottom of the old label. This statement was removed because it is not required by the FDA for excipient drug ingredients per the 21CFR.

During this transition time Rehydralgel manufactured before May 2014 will have the General Chemical label, while Rehydralgel manufactured in May and going forward will have the Chemtrade label.

Please let me know if you have any questions.

Ryan Paull  
Sr. Marketing and Sales Manager
